There was an insurance of \$10,000 on the latter. Mr. Sinclair says most emphatically that a new co-operative colony will soon take the place of the old, but there are stories of dissatisfaction with the old regime, and it is probable that if a new colony is started many of the old members will not join it. Some very amusing stories of the "goings on" at Helicon Hall have leaked out. While everything was perfectly proper in a way, yet unconven-tionality, spelled with a very big U ruled the day. The babies, for they had babies there, were allowed to run every night for a while before they were on them, turn handsprings, have pillow fights, etc., to get what was called their "air bath." As for the grown ups, they certainly had an easy time of it as far as dressing up was concerned, for they put their bloomers or bifurcated skirts and sweaters on in the morning, and kept them on till they retired at night. Mr. Sinclair dined in his brown corduroy trousers, quite baggy at the knees, like a workingman's, white flannel shirt and flowing red necktie. When in deep thought he would put his right fork in his left hand, but when he felt like talking he was a very witty, easy, delightful conversationalist. To anyone with a sense of humor life in Helicon Hall was a huge joke. The fun began in the morning with the breakfast of hominy, educator crackers and prunes and lasted all day. The dinner was the most fun, when all sorts of discussions were started and carried on by all sorts of cranks. It was certainly no place for the prim person of either sex, but

Utopia, where the snarls of housekeeping were supposed to be untangled and the female inmates disported themselves in the free and untrammeled bloomer costume, was burned to the ground early in the morning of March 16. One man was killed, several injured and nothing was saved, most of the inmates escaping in their night clothing. Mr. Sinclair rushed out in his pajamas, and seeing there was not Helicon Hall, Upton Sinclair's New failed to rally. Mr. Aldrich's life was

Rather a dramatic scene occurred in the Thaw trial last Wednesday, when Jerome, altho not making a direct application for the appointment of a commission in lunacy, appealed to the conscience of the court in an earnest, impressive speech, in which he stated that it was the opinion of all who had watched Thaw or come in contact with him that he was now insane and not in a condition to intelligently take in the Miss Ethel G. All this was decidedly embarrassing and disconcerting to the defense, who, while Mr. Gleason's ques-tioning was going on, picked up their justed, and Mrs. Belmont is still with papers and pointedly walked out of court, leaving him alone with his awk-ward fiasco. Gleason, however, put the blame upon Delmas for this, saying that if a commission was appointed on the country at present,

As to the general financial condition of the country, he says it looks all right on the surface, but the undercurrent does not look so good to him. While we are unusually prosperous at the present time, we are not saving money correspondingly. It is reported that Mr. Rockefeller has left to religious, educational and charitable objects, and that there is scarcely a man, woman or child who will not be benefited in some way from this princely donation.

Stereoscope and View Offer.

The National Tribune has made arrange ments with a large manufacturer of stereoscopes for such a very large supply that we are en abled to sell them at the very lowest pricea price that could not be secured by any party who would use only a limited number of the stereoscopes. The price is so low that we are enabled to offer to our readers a very handsome and serviceable stereoscope, together with The National Tribune for one year, at \$1.25. If anyone is dissatisfied with his stereoscope he may return it to us, postage paid, and we will return to him 75 cents.

Description of the Stereoscope.

The stereoscope is satin finish, aluminum hood, velvet edged, folding handle, oak-stained wood, perfect lenses of large size, purest glass, hood fits any face. The lens holder, the handle, the partition, the shaft, and the stereoscope holder are made of good quality oak-stained wood, with a rubbeddown finish, giving it a beautiful luster not easily scratched or marred. as is the case with a varnished scope. Our

stereoscope is a rich and beautiful instrument. The rubbed finish, oak-stained wood, the velvet edge aluminum hood stereographs of the Holy Seputchre, the make an effective and attractive instrument. The handle, fixtures and the spring on the stereoscope holder are the best quality of spring brass. The stereoscope is carefully constructed on scientific principles, and hence will not strain or tire the eyes as do so many inferior and cheap instruments.

Price, express charges prepaid, 75 cents. The National Tribune one year and the Stereoscope, both postpaid, \$1.25.
